**MICHAEL FOUNDATION**  
a foundation for epilepsy

Deadline for applications:  
December 31<sup>st</sup>, 2022

[www.michaelprize.de](http://www.michaelprize.de)

## The MICHAEL PRIZE

Awarded for the first time in 1963 to encourage epilepsy research in Germany, today the **MICHAEL PRIZE is one of the most highly regarded international awards** for the best scientific contribution to progress in the field of epileptology.

The MICHAEL PRIZE is awarded every other year, at the occasion of the International Epilepsy Congress, to young researchers who have not yet reached the age of 45.

The MICHAEL PRIZE 2023 is awarded in 3 categories each of which is endowed with € 15.000:

- **Pharmacology and pharmacotherapy**
- **Psychiatry, psychology and neuropsychology**
- **Experimental epilepsy research**

---

For the **MICHAEL PRIZE 2023** may be considered

- up to three scientific papers in English language which are published or accepted for publication
- at least one of the papers must be from the period 2021 - 2022
- for papers accepted for publication a copy of the acceptance letter must be submitted.

Deadline for applications:

**December 31<sup>st</sup>, 2022**

For more information and entry form please consult [www.michaelprize.de](http://www.michaelprize.de)

---

The applications submitted will be rated by an independent jury consisting of:

Eleonora Aronica, Amsterdam / The Netherlands,  
Yushi Inoue, Shizuoka / Japan,  
Jean Gotman, Montreal / Canada.

The final decision will be taken by the Board of Trustees of the Michael Foundation. Legal recourse is excluded.

The MICHAEL PRIZE 2023

is generously sponsored by UCB Biopharma S.P.R.L.
